## 2016 ENERGY EFFICIENCY INCENTIVES NEW RESIDENTIAL CONSTRUCTION APPLICATION

CPS Energy offers incentives to builders and contractors for new residential construction based on a “whole home performance” concept. To receive an incentive for energy efficiency in new residential construction, the building must be at least 15% more efficient than then (IECC 2015) building code. The building codes and related efficiency incentives were adopted from recommendations provided by a diverse community stakeholder process and formalized by City of San Antonio (CoSA) ordinance.

A residential structure is defined as a single-family home, a duplex or a fourplex. Each structure (not each unit) qualifies for a single rebate. Multi-family structures with more than 4 units are considered commercial construction and addressed under the New Commercial Construction Program.

To provide flexibility to builders and developers, no specific efficiency measures are identified as being eligible for energy incentives. This rebate is based on “whole home performance” and energy efficiency must be at least 15% above code to qualify. This provides builders the flexibility to use whatever building methods they feel appropriate to meet the standards.

**To qualify for the New Home Construction incentive program in 2016:**

Applicant must demonstrate that the home is at least 18% better than code by

Providing the 3 page “Single Family House Energy Report” from IC3.TAMU.EDU	<b>or</b>	Providing a Level I (or greater) Certificate from Build San Antonio Green
--	-----------	---

Please complete the following:

**Note:** A homeowner can only apply if the homeowner was the builder or has letter of approval from builder and/or contractor.

Address of new residence (must be served by CPS Energy)		300- CPS Energy Account Number
Name of Applicant	Phone	Email
Mailing Address (where rebate check should be sent)	Federal tax ID number <u>or</u> SSN of Applicant	
Date building permit filed	Date closed	
Housing type Single family Low-ride, Multi-Family	Conditioned Square Footage	
Certificate of Occupancy date	Confirmed HERS Index	
Hers Rater’s Name	Phone	

\$800 per structure	(2012 IECC) energy codes at 18% above code or (2015 IECC) energy codes at 15% above code	\$1500 per structure	(2012 IECC or 2015 IECC) energy codes at 31% above code or better
